

The background is a light blue gradient. In the upper left, a blue Contour TS glucose meter is visible, showing a reading of 8.45. Scattered around the meter are various medical icons: a first aid kit, a heart with an ECG line, two band-aids, a bandage, a test tube rack, and a heart with an ECG line. In the foreground, there are several white glucose test strips, some with red liquid on them, and a small white tube.
